Conclusion

The alleged father, SAMUEL H. SLOAN, cannot be excluded as the biological father of SANDRA KIMURA SLOAN. Based on the genetic testing results, the probability of paternity is 99.99% when compared to an untested random man of the North American population. (Prior Probability = 0.5) At least 99.99% of the North American population is excluded from the possibility of being the biological father of the child.
